

## Program

09:00 – 09:30 Arrival and coffee

09:30 – 10:30 Plenary session

---

Welcome by Leo van Wissen, President of the Netherlands Demographic Society

### Keynote Address

“The Revolution of Adult Longevity”

Professor Jean-Marie Robine (Institut National de la Santé et de la Recherche Médicale and École Pratique des Hautes Études)

### Discussion

Presentation of the 2016 NIDI-NVD Master Thesis Award by Leo van Wissen, Director NIDI

---

10:30 – 11:00 Break and coffee

11:00 – 12:30 Parallel sessions I

12:30 – 13:30 Annual meeting NVD with lunch (NVD members only)

12:30 – 13:30 Lunch

13:30 – 15:00 Parallel sessions II

15:00 – 15:30 Plenary Poster session

15.30 – 16.00 Break and coffee

16:00 – 17:30 Parallel sessions III

17:30 – 18:30 Presentation of the NVD Poster Award 2016 and Drinks

## Dutch Demography Day 2016

On **Wednesday 23 November 2016**, the Netherlands Demographic Society (NVD) is organizing the 9th Dutch Demography Day in the Academy Building of Utrecht University. At the Demography Day 2016 the most recent findings in the broad and interdisciplinary field of population studies will be presented. The scientific program comprises a Keynote Address and several rounds of both English and Dutch language parallel sessions, as well as a poster session.

### Call for Abstracts

Abstracts (maximum of 300 words) can be submitted until **Monday 15 August 2016** through our website [www.nvdemografie.nl](http://www.nvdemografie.nl). As the Dutch Demography Day addresses the full range of population studies, abstracts from a variety of scientific disciplines are welcome. Participants will be informed by mid-September if their abstract has been accepted for presentation in one of the parallel sessions or in the poster session and about the working language in their session.

**The decision about presentation in either a parallel session or the poster session lies with the Organizing Committee.** However, participants wishing only to present a poster and to compete for the NVD Poster Award can indicate this preference. Participants may indicate whether they prefer to present in English or in Dutch.

## Dutch Demography Day 2016

### Date

23 November 2016

### Location

Academy Building, Utrecht University  
Domplein 29  
Utrecht

### Organization

Netherlands Demographic Society  
(NVD)

### Information

#### Phone:

070-3565251 (Ingrid Esveldt)

070-3565281 (Anne Brons)

E-mail: [demografiedag@gmail.com](mailto:demografiedag@gmail.com)

Website: [www.nvdemografie.nl](http://www.nvdemografie.nl)

Demography Day 2016

Dutch Demography

### **NIDI-NVD Master Thesis Award 2016**

This Award will be presented to the best master thesis in population studies. The Award is jointly sponsored by the Netherlands Interdisciplinary Demographic Institute (NIDI) and the Netherlands Demographic Society and carries a €500 prize. Candidates should check the rules of play for this competition at our website [www.nvdemografie.nl](http://www.nvdemografie.nl).

Master theses can be submitted until **Friday 30 September 2015** at [demografiedag@gmail.com](mailto:demografiedag@gmail.com)

### **NVD Poster Award 2016**

This Award will be presented to the best poster at the Dutch Demography Day 2016. Poster presenters will have 2 minutes to pitch their work during the Plenary poster session. Please check the rules of play for this award at our website [www.nvdemografie.nl](http://www.nvdemografie.nl). The NVD sponsors this award with a €100 prize. Posters will be judged during the Dutch Demography Day.

### **Keynote Address:**

#### **The Revolution of Adult Longevity**

This lecture puts the current adult longevity revolution in perspective with the main gerontological models of the years 1980-1990. We try to give a precise definition of this revolution and show how it differs from the usual demographic transitions as the fall in infant mortality. We describe the consequences and especially the dynamics of the emergence of new age groups and discuss the impact on societies, organized in 3 age groups, young people, working age people and the elderly people. What does ageing well mean in this context?

The discussion follows four avenues. The first is the surprising inability to admit the variability of ageing trajectories; which leads to propose unrealistic models. The second is the existence of a possible trade-off between longevity and functionality. The third concerns the near impossibility of experts to anticipate a continuation of this revolution. Finally, the fourth avenue begins to explore what could be a society based on 4 age groups.

### **Registration**

Your registration is due by 1 November 2016 at the latest on [www.nvdemografie.nl](http://www.nvdemografie.nl). Since the available space is limited, early registration is advised.

Admission fee:

NVD members: €60

Non-members: €90

New NVD members\*: €95

Bachelor & Master students\*\* : € 25

(for PhD-students no reductions apply).

Admission includes lunch, coffee/tea and drinks.

*\* Admission to the Dutch Demography day 2016 and NVD membership until 01-01-2018.*

*\*\* Please bring your student card to the Dutch Demography Day.*
