

NVD-HAPS-NIDI Study Afternoon

Living environment and health

Leefomgeving en gezondheid

January 21, 2014

Organizers

Eva Kibele, Bart Klijs, Lea Ellwardt (HAPS), Joop de Beer (NIDI)

Organizers

HAPS-Healthy Ageing in Population and Society

- Collaborative project at the University of Groningen: Demography, Sociology and Epidemiology
- Mission: to enhance healthy ageing in society by studying the societal aspects of the process of healthy ageing, over the life course, focusing on the interactions between the three societal levels: macro, meso, micro

NIDI

- Demographic background to population ageing
- Closer collaboration with RUG/HAPS

NVD

Living environment and health

Scientific evidence

- Past 2 decades: increasing number of (review) studies showing impact of the living environment on health

Demographic & societal challenges

- Population ageing → Financing of health care and pension systems

Politics

- European Innovation Partnership on Active and Healthy Ageing: increase of 2 healthy life years in the EU27 within 10 years
- AGE Platform Europe (2011): How to promote active ageing in Europe? EU support to local and regional actors
- WHO: health promotion through local communities and creation of health-promoting living environments (Marmot et al. 2012; WHO Regional Office for Europe 2013)

Program

13:00-13:10	Welcome
